

# DIDSBURY PIONEER

Vol. XIX

WEDNESDAY, AUGUST 30th, 1922.

No. 35

## Death of Old Pioneer

Mr. Wm. Hunsperger,  
Resident of District  
for 28 Years, Died  
Last Friday.

Gradually the men and women who came here when conditions were absolutely in a raw state in the Didsbury district and by their hard work and unselfish giving of themselves laid the foundations for a prosperous community are passing out of our sight, and with the passing each one of these old pioneers leave a gap amongst those of us who came in the early days which seems almost impossible to fill.

It is our unfortunate duty this week to again record the death of one of those old pioneers in the person of Mr. Wm. Hunsperger a man who

by his life of unswerving loyalty to the district and community and his integrity and outstanding faith in the better things left us an example that will be hard to follow.

Mr. Hunsperger, although of a quiet disposition, was always cheery and had a good word for everybody. He came to this district 28 years ago when there were mighty few settlers scattered over a large territory and consequently both he and Mrs. Hunsperger knew what real pioneering meant in the last great west. But through good times and bad they never gave up and they always gave a helping hand wherever they saw the need of it. For some years Mr. Hunsperger was President of the Didsbury Agricultural Society and was also a very valuable Councillor, being one of the first to be elected to that position when the town was incorporated. He also held the position of J. P. during the war and was made Postmaster in the spring of 1917, which position he held until sickness overtook him.

Deceased was born near New Dundee, Ontario, in 1846, being a little over 76 years of age. He was married in 1868 to Miss Katherine Schluchter from which union three sons and two daughters were born: Allan, Abner and Alvin, of Didsbury, and Mrs. E. Sherrick, Didsbury and Mrs. M. Ryckman, Chilliwaack, B. C. and 21 grandchildren.

There were ten brothers and sisters of Mr. Hunsperger but all are now dead with the exception of Mr. Ben Hunsperger, of Chilliwaack, B. C. and Mr. Aaron Hunsperger, of New Dundee, Ontario.

Mr. Hunsperger took a very active interest in church work right up to the time of his death being a member of the Evangelical church for over 50 years during which time he held sev-

eral offices, amongst them being Trustee, class teacher and Sunday School Superintendent.

The funeral was held on Sunday afternoon last and was the largest that ever took place in Didsbury, crowds of people being unable to get in to the services at either the home or the church, and the very large display of beautiful wreaths and bouquets testified silently but eloquently to the great esteem in which Mr. Hunsperger was held. Rev. Mr. Dengis, pastor of the Evangelical church, had charge of the services assisted by Rev. Mr. Goudie, Rev. Mr. Traub, and Rev. Mr. Bender. Rev. Mr. Goudie, a very old friend of the family, preached the sermon at the church while Mr. Dengis spoke briefly at the home and church. Interment took place in the Didsbury cemetery.

Mrs. Hunsperger, senior and the family have the sincerest sympathy of the whole district in their loss of a loving husband and kind father and the district mourns the passing of a wise councillor and kind friend.

Flowers and wreaths were received from the following: R. B. Bennett, Calgary, large wreath; Geo. Clonkey, Calgary, spray; Mr. and Mrs. Otto and Mr. and Mrs. Harder, Groulx, spray; Mr. and Mrs. Reid, Bolteril, wreath; Mr. and Mrs. B. Hunsperger and children, cross; Mrs. Stevens, Lacombe, spray; Post Office staff, wreath; Mr. and Mrs. W. J. Hillyard, cross; from the family a cross.

## CARD OF THANKS

We wish to sincerely thank all those who assisted us with their kind sympathy and help during the long illness and at the death of our loving husband and kind father.

Yours sincerely,

Mrs. Wm. Hunsperger and family.

## Car Collapses on South Hill, Lady Hurt

An auto accident that might have resulted fatally for a number of people happened on Sunday afternoon last on the old hill coming down to the Ross bud southeast of town. This old hill has not been used for general traffic for some time the new road curving around the bank of the hill being made on purpose to stop traffic over the old hill. However three auto loads of travellers were returning from Sylvan Lake to Calgary and the leading auto took the old hill and reached the bottom safely and so did the second car, but the third car broke a wheel coming down and went over the embankment at the bottom of the road, precipitating the occupants and severely injuring one lady who had several ribs broken and had to be left at the Didsbury General Hospital while the others were able to continue their journey. Mr. and Mrs. Frank and Gen.

Williams were in the first car. Mr. and Mrs. O'Neill (Mr. O'Neill is manager of the Security Carriage Co., Calgary) in the second and the car that caused the trouble was occupied by Mr. and Mrs. McKiltrick. All were Calgary residents and Messrs. Frank and George Williams, now being interested in the grocery business now owned by Messrs. Croisdand and Zimmerman.

A good strong bar put across at the top of this old hill would perhaps be advisable as others not knowing the road well might make the same mistake with fatal consequences.

## BIG BANK ROBBERY IN SOUTH ALBERTA

Robbers broke into the Union Bank at Foreman, Alberta, on Monday night and at the point of their revolvers tied up two clerks who slept on the premises and looted the bank of \$134,500 of this amount \$10,340.11 was in cash and \$124,160 in securities of different kinds including Victory bonds.

Up to the time of going to press no clue has been found of the gang who made special preparations to make a clean get away. The theory is that a large gang are working together in Bank hold-ups.

Teacher—Jimmie—what is the past tense of the verb "sneak"? Use it in a sentence.

Jimmie—I sneaked out of school last night.

## New Game Regulations

The Game Act was amended at the last session of the Legislature and now provides that every person shall obtain a license before hunting big game and in the case of residents the price for all, irrespective as to whether they are farmers or not, is \$2.50.

Sec. 18 of the Game Act provides that every person shall obtain a license before hunting game birds, except any farmer or member of his family residing with him upon his farm.

There is a Dominion law to the effect that all repeating shot guns must have the magazines plugged so as not to hold more than two shells.

## Excursion Rates to Eastern Canada

MONTREAL, Aug. 23.—The Canadian railways have decided to make excursion fares from Alberta, Saskatchewan and Manitoba to all points in eastern Canada, during December and early January to afford an opportunity to the people in the prairie provinces to visit eastern Canada.

## NOTICE

I will open a branch store of my millinery business at Didsbury beginning Sept. 15th. Location will be given later.

Mrs. H. W. Curry.

## The Futility Of Strikes

The Great War taught the world the futility of war. Those nations which started and lost the war are prostrate, while those which in honor were forced to engage in the struggle and who won the war are doomed to struggle along under burdens of debt and obligations which it will require several generations to pay. And, give all, what did the Great War really achieve for the benefit of mankind? Nothing, unless it be that at long last the human family has learned the futility of war, and the absurdity of trying to maintain peace by the making of feverish and gigantic preparations for war. The creation of the League of Nations, the establishment of an International Court of Justice, and the signing of disarmament treaties, all seem to indicate that the lesson has been learned.

But while statesmen, capitalists, and labor are all agreed that war is a curse and that no effort must be left untied which will prevent a recurrence of the catastrophes which overtook the world in 1914, each and all of these three main groups in the industrial world seem content that the age-long struggle between capital and labor, employer and employee, shall continue to be waged with the crude and chaotic "strike" as the chief weapon. Yet, surely in this presumably enlightened century, and with all the experiences of the past as a guide, the able leaders in the political and industrial life of the world must realize, and do realize, the utter futility of "strikes" as a means of obtaining redress of grievances and the accomplishment of permanent reforms.

Take the present outstanding example of the use of the "strike" weapon. Last Spring hundreds of thousands of coal miners in the United States went on strike in order to enforce their demands in a controversy with the mine owners and operators. As to the rights and wrongs of the dispute we are not so far as this article is concerned, in any way interested. Needless to say the right is not all on one side and the wrong on the other. But for five months now between half and three-quarters of a million men have been living in idleness—in idleness a national calamity because of the injurious effects on character and the inevitable development of selfishness and other bad habits.

For five months no wage changes have been coming in to support these men and their families probably a total of more than two million souls, and provide them with the comforts and necessities of life. They have had to depend on the meagre doles of "strike" pay out of Union funds and which had been deducted from their income in previous years. In the final analysis, therefore, these five months have been worse than absolutely lost to these hundreds of thousands of people.

The mine owners have suffered through deterioration of their properties and machinery, and through loss of profits on operation, but their loss has been small compared with that of their striking employees because the coal will remain in the ground to be mined at some future date and sold, in all probability, at a higher price because of the shortage created by nearly half a year of non-production.

Countless thousands of other workers have been forced to work on short time because of lack of sufficient fuel to keep the industries and factories in which they were employed operating full time. Railways have been forced to reduce the number of trains in operation and schedules have been lowered. Ocean going vessels have been compelled to carry sufficient coal from foreign ports to enable them to make the return voyage because they could not get coal at American ports. And now, with winter approaching and surplus stocks of coal rapidly disappearing, the people of the North American continent are fast to face with the problem not merely of keeping the wheels of industry revolving, but of actually keeping themselves from freezing to death in the months to come. Short coal as may be available will sell, it is feared, at an almost prohibitive price.

There are many other losses to be charged up against this "strike," as, for example, the loss of business to merchants everywhere in the mining regions because of the loss to the state resulting from the necessity of maintaining increased forces of police and military to maintain order when tens of thousands of people are living in idleness and suffering from a sense of wrong and injustice.

And what can possibly be written eventually on the other side of the ledger to offset these enormous losses? The strike will be settled sooner or later, and almost certainly in a compromise of some kind. That compromise could just as well have been reached in a conference by arbitration before this strike as now after months of suffering and loss. Even should one side win everything for which they are holding out, that side will not begin to compensate for the loss.

Industrial war waged through "strikes" is just as senseless, just as futile, as war waged between nations. Both bring suffering, sorrow and loss, in their track, and inevitably result. But capital and labor both remain blind to this fact; each refuses to see any side but their own. And statesmen remain dumb and neutral and apparently have not the courage to grapple with the thorny problem and provide by law some method which will prevent further repetitions of this senseless only. It must be ended eventually, but apparently it is going to take some industrial upheaval comparable only to the Great War to bring the peoples of the world to their senses, and cause "the public" to rise in their might and say "this thing has got to stop."

## Weekly Newspaper

### Readers Valuable Service

Has a Field of Usefulness Peculiarly Its Own

The important services which the country weekly renders to its community by publishing timely agricultural news, was emphasized by W. A. MacLeod, Commissioner of Publications for the Saskatchewan Government, in an address delivered by him at the Western Publishers' Short Course and Conference held recently at the Manitoba Agricultural College.

There is a vital distinction between the news field of the weekly paper and the city daily, the speaker stated, as the daily newspaper deals very largely with what might be described as "bad news," wars, revolutions, murders, accidents, calamities of one kind or another, and the weekly newspaper, dealing largely in local activities, appeals most to its readers when it is, in fact, most of the story to "good news," information about the social life and the progress and development of the district and community, and in an agricultural community the agricultural news sent out by the Federal and Provincial Governments provides an important source of information.

Illustrations were given of how the value of agricultural news sent out in the form of bulletins or news articles was very greatly increased when the editor gave the article a local color by adding to the article some news of local conditions concerning the same subject. Information about the best varieties of cereals or forage plants is of far greater interest to readers if the editor can tell of some local farmer who is experimenting with these varieties, and news of an outbreak of insect pests gains much in value if the editor can give accurate information as to local conditions in connection with such an outbreak.

Governments, both Federal and Provincial, have invested very large sums in experimental farms and agricultural colleges where experiments are carried out of the highest importance to agriculture, and the weekly press renders a great service not only to its readers but to the country generally when the results obtained is published, even if the paper cannot afford more space than merely to quote the general results and direct the reader to bulletins or reports giving more detailed and complete information can be secured.

The value of pictures to illustrate the text was referred to, but about the only way in which illustrated agricultural articles could be used by the average country weekly was when they ran in the ready-print portion of the paper, and the speaker expressed his pleasure at the cordial cooperation extended by the ready-print company which supplied the ready-print for the majority of weekly papers in the prairie provinces, in publishing cuts to show the best methods of identifying various insect pests and methods of control.

In closing, a reference was made to the very great demand made upon the small space available in the average country paper, and to the importance of condensing the news articles as much as possible to make them available to the weekly papers as the editor should not be expected to furnish the space and prepare the articles as well.

The weekly press of Western Canada was said to take a leading place in the quantity of valuable and timely farm news carried in its local pages.

## Unearth Our Resources

Ottawa Government Placing Thirty-Nine Survey Parties in the Field

The Ottawa Government is to be congratulated on taking practical steps to aid in developing Canada's natural resources by placing thirty-nine survey parties in the field in the hope of finding new deposits which will be the means of furnishing employment and railway tonnage.

These parties are to go to work in every province and the territories as well, including the Yukon. These uncovered resources will prove when opened up, to add much to the wealth of the Dominion and will tend considerably to increase our prosperity. A commendable feature of the policy is to confine the work of investigation to territory within reasonable distance of transportation routes rather than send parties into remote districts—Montreal Herald.

## To Exhibit Alberta Tar Sands

Samples Are Being Sent to State Fairs in U.S.

Samples of Alberta coal and the famous Athabasca tar sands will be included in the exhibits of natural resources that the Government is sending to four state and interstate fairs across the line. While the bulk of the displays thus being made for publicity's sake will be agricultural in character, it has been decided to show something also of the province's mineral wealth, and there will be some big pieces of coal, chosen from several mines in both the northern and southern mining fields, together with a generous portion of the bituminous sand-stuff.

Pictures of mining operations will also be included in the pictorial section of the exhibit. These will be interspersed with the elaborate showing of farm pictures now being prepared for the purpose, and will give a graphic idea of the underground riches of this province as well as of its agricultural resources.

Every knuck one man gives another is intended for a boost for himself.

Minard's Liniment for Dandruff

When a woman tries to capture a wealthy husband she eventually believes that his means will justify her ends.

New Irrigation District  
Farmers in the district east of Heflaw, Alta., have decided to form the New West Irrigation District. The area in this district will be about 1,700 irrigable acres, and every effort is to be put forth to have the construction work done this summer in order that the water may be available for the land next season.

## SUMMER HEAT

### HARD ON BABY

No season of the year is so dangerous to the life of little ones as the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera infantum, dysentery and colic are most prevalent. Any of these troubles may prove deadly if not promptly treated. During the summer, mother's best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy. The Tablets are sold by medicine dealers or by mail of 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

From a literary point of view, fame consists in having people know you have written a lot of things they haven't read.

An iceberg that rises 100 feet above the water stretches 700 feet below it.

# ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds Headache Rheumatism

## Serious Aspect To Coal Strike Situation In Nova Scotia Fields

Ottawa.—In an effort to prevent the flooding of the coal mines in Nova Scotia, Hon. James Murdock, Minister of Labor, has requested the assistance of John L. Lewis, President United Mine Workers of America. Mr. Murdock has urged President Lewis to wire to officers of the United Mine Workers of America in Nova Scotia suggesting that they do not permit the mines to be flooded, causing "irreparable damage," and that an opportunity be given for further negotiations between the men and the British Empire Steel Corporation. It is understood here that President Lewis has telegraphed to the officers of the U. M. W. A. in the Nova Scotia fields in accordance with the request of the Minister of Labor, but the terms of his message have not been received here. It is reported here that already very serious damage has been done to the mines by flooding.

Colonel Blanes, with 200 men from Halifax, has occupied number two colliery at New Aberdeen, after ears with a party of workers who had been sent from Sydney to man the pumps had been stoned and the workers sent back to Sydney. Reports from Pictou and Cumberland counties maintained that all is peaceful there. New Aberdeen and New Waterford are regarded as the storm centers.

Calgary.—There is no indication that the coal miners' strike in British Columbia is nearer a settlement than the renewed efforts of Hon. James Murdock, Federal Minister of Labor. The minister had a further conference with the men's officials, but without any satisfactory results.

## Cattle Men Appeal Against Tariff Duties

Claim High Rates Hurting Trade Between U.S. and Canada

Washington.—Believing they will be greatly harmed by the emergency tariff duties on cattle and the cattle duties proposed in the new tariff bill, Western Canadian cattle growers have sent individual letters to more than 30,000 United States farmers urging a change in the rate. The Canadian cattle men have also appealed to the Senate Finance Committee, House Ways and Means Committee and in individual members of both Houses of Congress.

The Canadian cattle men seek to show the high rates do not benefit United States farmers, and even actually hurt them by shutting off from the United States desirable "feeder cattle" which could be fattened in the United States to the advantage of the farmers in this country. Further, the Canadian cattle men point out that the high rates existing and proposed are hurting trade between the United States and Canada.

## Ontario's Provincial Bank

People Have Deposited One Million In Six Weeks

Toronto.—The province of Ontario Savings Department has written one million dollars' worth of business in the first six weeks in operation. Over 100 representatives of the Assured Savings' Branch of the Provincial Bank held a dinner last week and reviewed the work, which has been sensational in Ontario.

Congratulations have been showered upon the staff of Ontario's Bank for their energies which have attracted thousands of citizens. Mr. McKenzie, director of the Province of Ontario Savings Department, told of the initial successes which confronted the members and said the loyalty of those who launched the project was responsible for its huge success in so short a period.

Refreshes Weary Eyes

When your eyes feel dull and heavy, use Murine. It will quickly refresh them and clear away the tiredness. Murine is recommended by all oculists.

MURINE FOR THE EYES

W. N. U. 1624

## World Mourns Death Of Lord Northcliffe

Messages Significant Of Esteem In Which Publisher Was Held

London.—World-wide regret at the death of Viscount Northcliffe continues to be voiced by the flood of telegrams and cable messages received by the family and published in Northcliffe papers. The messages sent to Lady Northcliffe by the King and Queen and other members of the Royal Family and the tribute from President Harding are significant of the esteem in which the great publisher was held, says the Times.

The President of France, the Viceroy of India and the Dominion and Commonwealth Premiers are also among distinguished men of the United States in attesting to Northcliffe's work and the eminence of his achievements. The scores of messages occupied more than a page of the Times.

## Dublin Silent While Leader Is Buried

All Activities Suspended During Funeral of Arthur Griffith

Dublin.—Ireland buried another of her distinguished sons. Arthur Griffith was laid to rest in historic Glasnevin Cemetery, after services of impressive solemnity in the beautiful cathedral of the Immaculate Conception. Many attended the Requiem High Mass for the repose of the soul of the departed leader—celebrated with all rites and ceremonies of the Roman Catholic Church. The cathedral was crowded, and the thousands unable to gain admission to the edifice stood in the streets outside following as nearly as possible the service they could not see.

All activities in Dublin were suspended during the funeral.

## American Judge Is Suspicious

Thinks Many Canadians Obtaining Divorces in Detroit Evading Law

Detroit, Mich.—Convinced that hundreds of Canadians are obtaining divorces in Detroit every year by falsely representing themselves as residents of the city, Judge Richter has ordered Edward Pokorney, clerk to the court, to investigate the residence of every Canadian who files suit for divorce.

"I will not grant a divorce in any Canadian case until Mr. Pokorney assures me that one of the parties has really lived here two years as required by the statute," said Judge Richter. "Many suits are being filed by Canadians that it has made me very suspicious."

## POSSIBLY YOUR OWN WIFE

She may not look so young and pretty as she used to. If her cheeks are hollow and pale, if she is tired and nervous, her system needs a good regulating with Dr. Hamilton's Pills, a real medicine that is not only restoring the bloom of health to sickly girls and women. Dr. Hamilton's Pills clean up the entire system. Complexion quickly becomes rosy. Stomach, vigor and good looks will soon return to a faded woman. If she uses Dr. Hamilton's Pills. Sold everywhere, 25c per box, or from the Cataractine Co., Montreal.

Three Hurt in Mine Accident  
Glacier Bay, N.S.—William Cameron had a leg broken, Joseph McNeil received injuries to his head, and Daniel MacDonald was badly shaken, when the car in which they were about to descend into No. 2 mine at New Aberdeen went up instead of down and struck violently against the head of the cage shaft. Safety catches prevented it from plunging to the bottom of the 300 foot shaft.

Mount Robson Scaled  
Edmonton—Windsor Paterson, of San Francisco, with Jack Hargreaves, Canadian guide, reached the peak of Mount Robson recently. This is the second time in history that Mount Robson has been climbed. It is the highest point in the Rockies.

Ernest G. Pickup, Editor and Proprietor of The Chronicle, Shellbrook, Sask.

## Agree With Premier Poincare

Stand Taken at London Conference Is Approved by French Cabinet

Rambouillet, France.—Sitting under the presidency of President Millerand, the French Cabinet at its session here gave unanimous approval to the 251-page text taken by Premier Poincare at the recent conference of Allied Ministers in London, and also discussed the question of a memorandum to Germany.

On the matter of a memorandum, it was decided to avoid the forthcoming decision of the Reparations Commission, but plans were perfected regarding the measures to be adopted should the decision of the commission fail to agree with the French viewpoint.

Another decision arrived at was that for the time being the Government need not call an extraordinary session of Parliament, so that the deputies and senators might be acquainted with the exact situation and the programme of the Government. Freedom of action was reserved, however, to consult with Parliament in the event that the plans adopted should require legislative endorsement.

## Jewish Orphanage Burned

Montreal.—Twelve persons perished in the fire which destroyed the Jewish Boys' Orphanage at Shawinigan. Eight of the victims were inmates, the others being the janitor, his wife and their two children.

It was thought the fire originated in the basement. The Jewish Boys' Home was a summer annex of a Montreal institution. It accommodated 55 boys between 7 and 16 years of age. The building was of brick construction and three stories high.

## Death of Former C.P.R. Official

Winnipeg.—William Cross, aged 50, formerly assistant to the second vice president of Canadian Pacific Railway, died at his home here. Mr. Cross was a native of England, coming to Canada in 1863. He was for many years connected with the mechanical department of the Montreal shops, and on his transfer west handled mechanical matters for western lines. After 40 years' service with the C.P.R., Mr. Cross was superannuated in 1917.

## French War Ace Injured

Clement Perrand, France—Gilbert Saurier, the French "ace," who during the war brought down 15 German planes, was badly injured when in a Cessna gliding airplane competing in the international gliding contest here. He was dashed to the ground after the control of the machine refused to respond. The machine was caught in a 30-mile wind and in a complete wreck.

## NOTHING TO EQUAL

**MINARD'S**  
"KING OF PAIN"  
LINIMENT

For Sprains and Bruises  
The best thing to do when you have an injury is to apply Minard's Liniment. It is a wonderful, soothing, healing and green quick relief.

## Plan Ways And Means To Assist Farmers In Marketing Grain

## Resents Criticism Of American Surgeon

Canadian Should Standardize Canada's Hospitals, Says Dr. McKeown

Toronto.—"If it is necessary to standardize the hospitals in Canada, it should be done by someone in Canada." This was the reply made by Dr. Walter McKeown, of St. Michael's Hospital to a criticism of Ontario hospitals made by Dr. M. T. McEachern, director of the American College of Surgeons.

Dr. McKeown continued: "We leave too much to the Americans and to such institutions as the Carnegie and Rockefeller Foundations."

## Employment Increasing

Improvement in Labor Market Is Very Perceptible

Ottawa.—"The volume of employment is undoubtedly on the upgrade," was the optimistic view expressed by R. A. King, newly appointed director of the Employment Service of the Department of Labor.

"Business is recovering unquestionably," he said. "We have touched the bottom of the ladder and we have begun to climb. We cannot expect to reach the top suddenly, but without considerable effort, but we are facing the right direction. The improvement in the labor market, though gradual, is very perceptible."

Mr. King did not anticipate as hard a winter as the last two have been.

## Disastrous Fire At Barons

Post Office, Postmaster's Residence and Implement Store Destroyed

Calgary, Alta.—A special despatch to the Herald from Barons, Alta., says:

Fire completely destroyed the post office, residence of the postmaster, and the Barons Implement Company's warehouse and store.

The implement store and stock was valued at \$20,000, very little insurance being carried. The post office and residence of Postmaster Andrews, were valued at more than \$6,000 and were fully covered by insurance.

## New South Wales Immigration

London.—The Government of New South Wales has agreed to the principle of the immigration scheme under which the Australian Commonwealth Government, New South Wales and Great Britain each pay a third of the cost of bringing out land settlers from the United Kingdom to New South Wales, says a Reuters despatch from Sydney.

## Indian Village Bombed

Shimla, British India.—In retaliation for an attack on a number of the Royal Welsh Fusiliers, near Lawas, three bombing planes flew over the village of the tribesmen and dropped heavy bombs. Three persons were killed and two wounded, four houses were wrecked, a large area of crops was damaged, and a number of cattle were killed.

## Exchange Flour For Welsh Coal

Welland, Ont.—The Maple Leaf Milling Company has arranged to take a load of flour to Wales, soon, and returning the cargo will consist of Welsh coal in order to assist the local fuel situation. The matter was being heard in the City Council meeting and the Maple Leaf Milling Company commended for its efforts.

## German Debt Increases

Berlin.—From August 1 to August 10, the floating debt of Germany increased \$500,000,000 marks, the aggregate on the later date \$13,400,000,000 marks.

## Troops Demobilized

Columbus, Ohio.—Ohio National Guard troops sent to the various Ohio coal fields during the strike, were ordered returned to their armories and demobilized by Governor Ely.

Berlin.—The Federal Government might assist farmers by calling a conference of bankers to devise ways and means to enable farmers to hold their grain long enough to prevent the usual full glut of the market with its consequent flattening of prices.

This in effect is the suggestion made by Premier Charles A. Dunning to Premier King in reply to the latter's telegram offering the cooperation of the Federal Government in the provision of measures as a substitute to the Wheat Board now that the latter has fallen through and asking for further suggestions from both Alberta and Saskatchewan Governments.

At the same time Mr. Dunning announced that he could call another conference this fall of creditor classes other than bankers, with a view of securing their cooperation by extending leniency to farmers' defaults. Mr. Dunning pointed out, however, that the banks come within Federal jurisdiction, and to come to any agreement with the bankers would entail mediation by Dominion authorities.

Edmonton.—"Nothing more to be done," is the substance of Premier Greenfield's reply to the wire from Ottawa asking if the Dominion Government can be of further assistance in regard to the Wheat Board. With the failure to secure a chairman and vice-chairman for the board the incident is closed for the time being as far as this province is concerned, and no further action at the present time is desired or contemplated.

Mr. Greenfield says that the Prime Minister's suggestion in reference to creating an open market for wheat does not raise any new point, since the market is already open and would not be otherwise until the board had started to function. Nor is there anything in the way of British and other buyers making such contracts as they may please.

The Provincial Government has nothing further to suggest just now says the Alberta Premier, and is acknowledging the offer from Ottawa with thanks, but without asking for any further action.

## May Be Redistribution

Toronto.—With the postponement of the next provincial election to the fall of 1923, gossip at the Parliament Buildings has found a new subject in the probability of a redistribution of the Ontario electoral districts before the voters again go to the polls. The most important changes are expected to materially increase the representation of the cities in the new house.

## BURNSIDE

Mr. and Mrs. John Greer spent Sunday with friends near Three Hills.

Miss Dehnbroke left for her home in Ontario on Thursday after spending several months with her sister, Mrs. Boulton, and friends.

Mr. Lloyd Munson is cutting wheat on his farm at Vulcan and reports the crops very good there.

Noah Eckel and Sam Elliott took in the Carstairs-Rockyford ball game at Carstairs last week. Mr. and Mrs. Will Topley and son spent the week end with the former's brother, Mr. John Topley.

Master Stuart Topley who has been spending a week with his friend Nelson McLean, returned to his home in Calgary with them.

## JUTLAND

Who says it can't rain in Alberta? No person, but the general opinion of the people of our burg since last spring was that the weather man was not sprinkling the earth enough.

Haying operations are going very slowly on account of so much rain and so often. But let it come, the more the merrier.

Johnny was asked by his teacher to tell the rest of the school how he comes to have such unusual clean hands this day. Johnny solemnly answered, "Mother made me wash 'em lishes this morning."

Quite a number of our sports took in the Didsbury Fair as

hay was impossible anyway. There were a lot of exhibits from here too, and a considerable number of prizes were brought back to Jutland as usual. Ours for good quality even if we have had a dry summer.

Mrs. Michael Stumpf and daughter Isabel from Midway, Ontario, is visiting with her sons north of here for three months. She says that while on her trip out here she noticed some very excellent crops while at other places they were very poor, not nearly as good as ours around here.

Miss Hall is the teacher for our school for this term.

We welcome Miss Hall and wish her every success.

The Sunday School was very well attended last Sunday. Come again you are very welcome. Though the service was lifted on account of the funeral of the late Mr. Wm. Hunsperger there will be service again on September the 10th.

Mr. and Mrs. Corneilus Stumpf with his mother and sister spent Sunday with Mr. Ed. Liesemer's.

Mr. Geo. Hewitt made a trip to the coal mine recently and herded eight head of horses ahead of his two wagons. Mr. Hewitt is right at home amongst a bunch of horses, he comes from California you know.

First samples of wheat being received at the dominion government elevator at Calgary are grading No. 1 hard and No. 1 Northern. Several carloads of wheat have already been marketed.

According to Dr. M. A. Nobles, a physician and geologist who has made a deep study of volcanic disturbances, within 30 days southern Europe, Northern Africa, the whole of Asia and the western section of the U. S. beyond the Rockies will be destroyed by earthquakes. The eruption that he says will wipe out Europe will occur at Budapest where there are 70 volcanoes. We wonder.

## POUND NOTICE

To whom the same may concern: notice is hereby given that by virtue of power granted under Section 208 of "The Municipal District Act" and of By-Law No. 12 of the Municipal District of Mountain View Municipality No. 310, dated August 22nd, 1922, 1 bay mare, 5 years old, no visible brand; 1 gray (sleat) mare 6 years old no visible brand; Light bay gelding, 3 years old, no visible brand, was impounded in the Pound kept by the undersigned, on the N. W. quarter section 16, Tp. 31, Rge. 1, West of the 5th Meridian at 10 o'clock a. m. on Tuesday the 22nd day of August, 1922.

W. J. SCHMIDT, Poundkeeper  
Dated Didsbury, Aug. 22, 1922

LOST—One pinto brood mare and one gray 3 year old colt, two bay two year olds. All branded B on right thigh HAENER BROS., Elkton P.O.

# To Holders of Five Year 5½ per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

## CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, of either of the following classes:

- Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.
- Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unmaturing coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING,  
Minister of Finance.

Dated at Ottawa, 8th August, 1922.

## Discovered True Remedy For Systematic Catarrh

A bad case of Catarrh is not an easy thing to treat, and a remedy that makes good deserves great credit. Catarrh is certainly fixed up. Charles Webb, who writes from Woodstock, "For a number of years I was troubled with Systematic Catarrh. Nothing helped me very much. I used Catarrhine Inhaler and relief followed. This combination can't be beaten. They made me well. Your case may also be built, but Catarrhine will do for you what it did for Mr. Webb. Two months treatment. Two small size 20c. All Dealers or the Catarrhine Co., Montreal."

(Continued)  
XIII.  
Occidental Hotel, Carbon City, Alberta.

I put myself to bed at eight o'clock tonight on purpose to see if I could catch up the sleep I lost between here and Winnipeg, and now, at a quarter past nine, I am still wide awake. As usual, I sleep badly my first night on the train, and last night was even worse, for we had to change cars at midnight and we reached Carbon City at three o'clock in the morning. So with two broken nights behind me I am not sure whether it is today or tomorrow.

As to why I cannot go to sleep when I wish to, who shall know, who could go to sleep when just across the hill a number of cowboys are singing at the tops of voices trained in the great out-doors?

The chorus of one song, oft repeated, is quite audible:

"Farwell, my Bluebell, farwell to you,  
Just one fond glance into your eyes of blue,  
Mid campfires gleaming, midst star and shiel,  
I will be dreaming of my own Bluebell."

Whether is playing the accompaniment has played more different music than "Bluebell." Who is he, I wonder—or is it she? Hardly the latter, I think, for I cannot hear a woman's voice.

A police over the plains is the effect that all music must cease at half past ten. Until that time I shall have to submit to the serenade. I presume.

Mr. and Mrs. Bingham and Sunny and I—have become "Auntie Elzior," by the way—left Winnipeg Monday evening.

"We women," to quote

## I'm So Tired

Fatigue is the result of poisons in the blood. So when the kidneys fail to purify the blood one of the first indications is unusual and persistent tired feelings and pains in the back.

Neglected kidney troubles lead to years of suffering from rheumatism or develop into such fatal ailments as Bright's disease.

The kidney action is promptly corrected by use of Dr. Chase's Kidney-Liver Pills—the best known regulator of kidneys, liver and bowels.

Mr. John Ireland, R.R. No. 2, King, Ont., writes:

"I was a great sufferer from severe headaches and bilious spells. I used a number of remedies without obtaining any benefit until I was advised to use Dr. Chase's Kidney-Liver Pills. These completely relieved me and made me feel like a new person. I am very grateful to Dr. Chase's medicine for what they have done for me, and you may use my letter for the benefit of others."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers or Edmondson, Bates & Co., Ltd., Toronto.

Sunny, occupied what is known as a state room on the train. This is a private compartment at one end of the Pullman, and contains two berths and a couch. In view of the fact that I like to watch my fellow travellers, I considered the state room an unnecessary luxury—ten marks off for pleasure. But I must admit that at night it was pleasant to know that the berth above or below one was not occupied by a stranger. And it seems, although I do not know that my supposition can be confirmed by statistics, that the said stranger is always a fat man who snores exuberantly.

I can truthfully say that the lack of picturesque scenery between Winnipeg and Carbon City was a disappointment. Mile after mile we rattled over level prairie, nothing ahead of us and nothing behind us, but two steel rails. All the little towns look alike, and after we had passed a dozen of them I concluded that the name was placed so prominently on the station in order that passengers might know when they had reached their own town, otherwise I cannot see how they would ever feel alone. The bigger towns, Brandon, Regina, Moose Jaw and Medicine Hat, however, give evidence of life and originality, even to one who only sees them from the coach window.

At Regina I saw my first Mounted Policeman. He was altogether beautiful, and I only hope that his nice shiny boots did not pinch him, and that he was not laced too tightly. The red coats of the North-West Mounted Police—what a Ralph Cornelius thrill it gives one, approaching in degrees if not in kind that attendant upon a dose of quinine.

As I said before, we reached Carbon City at three o'clock in the morning. We came directly to the hotel, where Mr. Bingham had rooms reserved for us, so it was not until after my twelve o'clock breakfast that I saw anything of the town. This hotel is palatial compared with the Palace Theatre House. But hot and cold water, electric light, and a regulation dining room presided over by two waitresses can never take the place of Mrs. Miller.

When we had finished our breakfast, Mr. Bingham and Sunny took me around Carbon City and showed me all the places of which they, as citizens, have reason to be proud.

Carbon City, as it appeared to me, is about midway between Winnipeg and Elba—I hope no one thinks that I mean this geographically—with a slight leaning towards the latter place. It is one could take alternate buildings from Main Street, Winnipeg, and from Main Street, Elba, one could have a fair imitation of Main Street, Carbon City. Side by side with a low frame shack, none too substantial and sadly lacking in point, one could find a four-story office building with stone trimmings and a goodly assortment of plate-glass windows. In the residence district the contrasts are not so great, plain and unassuming homes are the rule. And there are no trees or gardens, due to climate and an incessant wind discourages the most enthusiastic of gardeners.

After dinner we went for another walk, but this time we took a new direction, away from the town and towards the river. At this season the river is very narrow and very shallow, but I shall tell you that at times the whole valley has been flooded. Properly speaking, the river has no banks, but runs through a level plain perhaps a quarter of a mile wide at this point. Then come the hills, again here and brown and unassuming-looking to one used to the wooded hills of England.

The foothills of the Rockies is a phrase that gives a wrong impression. I expected to see a succession of hills gradually becoming higher until they were mountains, but the appearance is rather that of wide plains cut by deep valleys, technically known as canyons. As the mountains are not visible from Carbon City there is nothing to give me the feeling that I am in a high altitude. Even looking up from the river-bottom I felt only as if I were in a ditch.

The reality of the atmosphere plays strange tricks with me. At one moment it seemed that I could have touched the opposite side of the canyon by putting out my hand, but even as I looked it appeared to recede mysteriously until it was miles away, and always, near or far, sinister and unapproachable.

On the whole, Southern Alberta has not impressed me favourably. The great bare spaces ungrazed and rendered unattractive by the atmospheric peculiarities that I have mentioned, and the arrogant sunshine "set on my nerves."

Mrs. Bingham is very comforting in this connection. She tells me that when she first came here she felt just as I do, and that now she loves the place and feels out of her element away from it. She gives me the reason for the unpleasant effect on the newcomer a nervous irritation due to the excessive stimulation of air and altitude, and she assures me that I shall soon adjust myself to the change.

In spite of the noise in the parlour I find that I am growing sleepy. The plains, true to the collector, has just finished playing Devereaux's "Humoresque." He played it with a flimsy old touch and a memory routine expression that makes me long to put my head under the bedclothes and indulge in a good cry. Wilmington is an far away from Carbon City!

(To be continued)  
The breed of which the Ash was built has been identified by many exhibitors on exposure.

## Worth More Than Gold To McPhail

Declares Tanlac Is Most Wonderful Medicine In The World

"The good I have received from Tanlac cannot be measured in dollars and cents," said Arthur C. McPhail, 759 Wellington Ave., Winnipeg, Man. "I have been in failing health ever since an attack of the flu followed by pneumonia some three years ago. As time went on instead of rallying my strength I seemed to be losing ground daily. I had no appetite, my stomach was upset and my whole system was so weakened that it was only by sheer force of will power I kept from collapsing completely."

"I am in perfect health now, eat, sleep, work and feel better than in years. Tanlac is in truth a wonderful medicine."

Tanlac is sold by all good druggists.

Champion Typist  
George L. Howfield, of Patterson, N.J., won an all-American typewriting speed contest at the Patent of Progress, Chicago, against a field of 100 entrants by writing 126 words a minute for 30 minutes.

## No Cause For Worry WHEN CHILDREN HAVE Summer Complaints

There is not a summer passed but that thousands of men, women and children are attacked by summer complaints such as diarrhoea, dysentery, colic, cramps and pains in the stomach, cholera, cholera morbus, cholera infantum, etc.

In looking for relief you should not delay in getting a bottle of Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for the past 77 years, and has stood the test of time.

Mrs. Geo. Chapman, Sudbury, Ont., writes:—"I am the mother of five children and I must say they are seldom sick or in need of medicine. They are, however, sometimes troubled with summer complaint, diarrhoea, and such like, but I always find there is no cause for worry as I just give them two or three doses, no more, of Dr. Fowler's Extract of Wild Strawberry, and the trouble soon disappears. It is a remedy that all mothers should keep in the home for the children."

"Dr. Fowler's" is for a bottle, put up only by The T. Milburn Co. Limited, Toronto, Ont.

If a woman is unwilling to take in washing and scrubbing to support the family, she has no business to marry a man to reform him.

Minard's Liniment for Burns, etc.

Hammocks are supposed to have received their name from the fact that the natives of Brazil used the bark of the hammock tree for nets in which to sleep.

## LACE! EVERYBODY IS WEARING IT NOW

Most attractive and satisfactory for a dinner and dancing frock is this lace Spanish lace over georgette. Lace is quite the craze now. It is being used for most everything. The girl is of georgette braided with flowers.

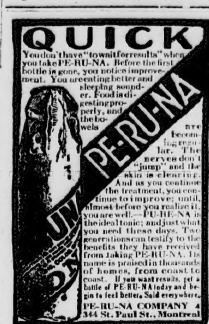

Miller's Worm Powders, being in demand everywhere, can be got at any chemist's or drug shop at very small cost. They are a reliable remedy for worm troubles and can be fully relied upon to expel worms from the system and abate the sufferings that worms cause. There are many mothers that relate that they found available no effective remedy for the relief of their children.

Do Your Own Thinking

Try a little thinking on your own account. The novelty of it would repay a lot of people for the expense. Don't borrow your language and your thoughts all the time for a walk with yourself occasionally. It may turn out to be quite an adventure.—London Daily Express.

Every Man to His Trade  
A Scotch minister met an old farmer who never came to the kirk. "Can ye say the Lord's Prayer yet?" he asked, "after all my exhortations to ye?" "Every mon tea his trade," answered the farmer. "Can ye make a tin pull?"

Reduced by Asthma. The constant strain of asthma brings the patient to a dreadful state of hopeless expectation. Early use should by all means be made of the famous Dr. J. D. Rolfe's Asthma Remedy, which more than any other acts quickly and surely on the air passages and brings blessed help and comfort. No home where asthma is present in the least degree should be without this great remedy.

A giant Redwood tree 210 feet high was recently moved 20 feet without lowering from its vertical position.

Sweet and palatable, Moberg's Worm Expeller is acceptable to children, and it does its work surely and promptly.

An ostrich is first picked of its plumes when less than a year old and then every nine months of its life.

Minard's Liniment Relieves Neuralgia

The largest known egg is that of the extinct elephant bird of Madagascar, its contents being about two gallons.

There may be other corn removers, but you will not be completely satisfied until you have used Holloway's Corn Remover.

Lions' France is paved with distressed people, the blocks being so closely fitted that water cannot pass between them.

## The right breakfast makes the day's work easy

HEAVY, starchy foods slow down both body and mind. Grape-Nuts speeds them up for the day's work.

This wholesome, healthful cereal food is made from prime wheat and malted barley, baked for 20 hours to insure easy digestion and perfect assimilation.

All the nutritive and mineral elements of the grains, which Nature needs to feed the tissues, glands, bone and blood, are retained in Grape-Nuts.

Weight for weight, there is more actual nourishment in Grape-Nuts than in most cereals. A Dominion Government analysis shows that Grape-Nuts contains 1299 calories to the pound, whereas a rib roast of beef as purchased (with its 20% of refuse) is known to contain but 1110 calories to the pound.

Delicious Grape-Nuts is most economical, too, affording more breakfasts in less bulk than any other cereal food.

Sold by grocers everywhere

### Canadian Dollar Almost at Par

New York, August 15—The premium on Canadian exchange yesterday was reduced to 7-32 of 1 per cent, an extreme low record. The high point was 19 1-4 per cent, reached in December, 1920.

The approach to par is attributed to the purchase of Canadian securities in the U. S., the grain movement and a general reduction of Canadian imports over exports.

## AROUND THE TOWN

The School Fair has been postponed until Saturday, September 30th.

Miss Jean Edwards has returned from her holidays at Sylvan Lake.

Miss Mae Studer has left for Toronto where she is continuing her course in music.

Miss G. Tregor of Calgary who has been visiting with Miss Mae Studer returned home on Monday.

Mr. Gordon Liesemer, of Detroit, left for his home on Tuesday after spending the summer with his cousin Mr. Arnold Liesemer.

Mrs. Ross and Mrs. Waldron who were visiting with Mrs. J. K. Rood for a few days left for their home at Calgary on Saturday.

Miss Farrell, of Edmonton who has been visiting with her sister Mrs. (Dr.) J. L. Clarke returned to her home on Monday.

Next Monday is Labor Day and a public holiday. All business places will be closed and the post office will only open for a short time after the arrival of trains.

Mrs. M. Ryckman who has been at home with her mother and father, Mr. and Mrs. Wm. Hunsperger for some weeks leaves with her daughter Beta for her home at Chidlawick, B. C., on Thursday.

There were several of our last years H. S. students who left on Monday for Normal at Calgary, among them being the Misses Vera and Margaret Sexsmith, Miss Nan Johnson, and Miss Ethel Klink.

Mr. and Mrs. A. G. Studer and family returned from their vacation at Sylvan Lake on Saturday. Mrs. J. A. Huget and children, on Sunday, and Mrs. H. Reiber and family and Mrs. J. H. Lowrie and two little daughters on Monday.

Mr. Corny, Heibert, a former Didsbury boy and well known and liked around here has formed a legal partnership with Mr. Lorne L. Miller, of Calgary, a former member of the late Longhead and Bennett Co. and they will now practise law in Nanaimo on Staveley.

The contract has been let for a new restaurant to be built on Osler street adjoining the post office. The owners of the proposed new building, Messrs. So Ho Joe and Soa Sang, who now operate the restaurant on the east of the Pioneer office, state that they are going to put up a first class building and the interior fittings will be of the best. Building operations will commence immediately.

### ENROLMENT AT NORMAL SCHOOLS

A heavy enrolment for the normal schools of the province is taking place this year, according to H. M. Perren Baker, Minister of Education. The enrolment has reached 781 thus far divided as follows: Edmonton 149, Calgary 218, Camrose 201. No permits will be issued this year, states Mr. Baker, save in

cases where it is absolutely imperative.

The superintendent of a large factory was short of help. One morning as a last resort he stopped a tramp who was passing by.

"Are you looking for a job?" he asked the tramp.

"What kind of a job?" asked the Weary Willy.

"Can you do anything with a shovel?"

"Sure," was the answer. "I can fry ham on it."
